Give your visitors an all-purpose soap with a fresh scent that's perfect for all skin types. Tork Mild Liquid Soap has moisturising and replenishing ingredients proven mild to the skin for gentle handwashing. Hygienic refilling instructions: Refillable dispensers can become contaminated by bacteria. Adding soap to partially empty dispensers increases the risk of bacteria growth which reduces the good effect of hand washing. Dispensers and pumps must be cleaned and sanitised before refilling. For information on how to maintain your open dispenser system, contact your dispenser provider. Sealed systems provide the best hygiene.
