LIPO STOP

SKIN PROTECTION BEFORE WORK
FOR OILY SUBSTANCES
FOR OILY AND ADHESIVE SOILING

Description:

- Oil resistant and water-soluble skin protection cream (O/W) with moisturizing film forming ingredients
- Protects the skin from direct contact with adhesive or oily substances
- Free of silicones
- Does not affect the self-regulation of the skin nor the sense of touch
- Does not leave fingerprints when correctly applied

Application area:

Lipo Stop protects the skin while working with stubborn industrial soiling, especially in the maintenance area and while working with strongly adhesive materials or substances that penetrate the skin, e.g. oil, grease, soot, graphite, brake dust, laquer, glue etc.

Skin care and the repeated use of skin protection are important and binding components of skin protection plans.

Application / dose:

Before work and after breaks rub a hazelnut-size d amount (2-3 ml) of Lipo Stop carefully into your clean and dry skin. It is important to also rub the cream into the skin between the fingers and into the nail beds. After drying for a short time the protection film is effective. The protection period is limited due to mechanical wear. Therefor the cream should be reapplied after 2-4 hours.

Restrictions in use:

Lipo Stop is designed to protect healthy and predamaged skin against adhesive or oily substances according to TRGS 401 appendix 9 and 10. For the treatment of active skin diseases a doctor should be consulted.

Benefits for the user:

- Free of silicones
- Protects the skin from direct contact with adhesive or oily substances

Product quality:

The production takes place in accordance with the EU cosmetics regulation No. 1223/2009 and under GMP (Good Manufacturing Practice) conditions.
